

## CareOne Outbreak Response Policies and Procedures

CareOne policies and procedures pertaining to COVID-19, outbreak response and related infection control or emergency preparedness practices are available in full in the Company's policy management software platform PowerDMS.

1. Our **protocol for isolating and cohorting infected and at-risk patients in the event of an outbreak of a contagious disease until the cessation of the outbreak** is described in the following proprietary policies, procedures, and protocols:
  - a. Infectious Disease Threat Surveillance and Detection
  - b. Surveillance for Infections
  - c. Isolation – Categories of Transmission-Based Precautions
  - d. Infectious Disease Threat, Infection Control Measures During
  - e. Coronavirus Disease (COVID-19) Identification and Management of Ill Residents
  - f. Coronavirus Disease (COVID-19) Infection Prevention and Control Measures
  - g. Influenza Outbreak
  - h. Isolation – Initiating Transmission-Based Precautions
  - i. Coronavirus Disease (COVID-19) Aerosol Generating Procedures
  - j. Outbreak of Communicable Diseases
  - k. Monkeypox Virus
2. **Clear policies for the notification of residents, residents' families, visitors, and staff in the event of an outbreak of a contagious disease at a facility** are described in the following proprietary policies, procedures, and protocols:
  - a. Coronavirus Disease (COVID-19) - Staff Notification of Exposure
  - b. Infectious Disease Threat Communications Plan
  - c. Coronavirus Disease (COVID-19) - Identification and Management of Ill Residents
  - d. Coronavirus Disease (COVID-19) - Testing Residents
  - e. Coronavirus Disease (COVID-19) – Documenting and reporting COVID-19 testing
  - f. Infectious Disease Threat – Emergency Procedures
3. **Information on the availability of laboratory testing, protocols for assessing whether facility visitors are ill, protocols to require ill staff to not present at the facility for work duties, and processes for implementing evidence-based outbreak response measures** are described in the following proprietary policies, procedures, and protocols:
  - a. Lab and Diagnostic Test Results – Clinical Protocol
  - b. Test Results
  - c. Infectious Disease Threat Training and Education
  - d. Coronavirus Disease (COVID-19) Education and Training
  - e. Coronavirus Disease (COVID-19) Identification and Management of Ill Residents
  - f. Coronavirus Disease (COVID-19) – Occupational Health
  - g. Coronavirus Disease (COVID-19) – Work Restrictions and Return to Work Criteria for Staff

## CareOne Outbreak Response Policies and Procedures

- h. Coronavirus Disease (COVID-19) Reporting Facility Data to the Centers for Disease Control and Prevention
  - i. Coronavirus Disease (COVID-19) Testing Staff
  - j. Coronavirus Disease (COVID-19) - Testing Residents
  - k. Coronavirus Disease (COVID-19) Documenting and Reporting COVID-19 Testing
  - l. Employee Infection and Vaccination Status
  - m. Communicable Contagious Diseases, Employee
  - n. Infection Prevention and Control Program
  - o. Outbreak of Communicable Diseases
  - p. Surveillance for Infections
  - q. Visitation, Infection Control During
  - r. Coronavirus Disease (COVID-19) - Visitors and Communal Activities
  - s. Test Results
4. **Policies to conduct routine monitoring of residents and staff to quickly identify signs of a communicable disease that could develop into an outbreak** which described in the following proprietary policies and procedures:
- a. Coronavirus Disease (COVID-19) – Testing Staff
  - b. Coronavirus Disease (COVID-19) Prevention and Control
  - c. Coronavirus Disease (COVID-19) Infection Prevention and Control Measures
  - d. Coronavirus Disease (COVID-19) Identification and Management of Ill Residents
  - e. Monkey Pox Virus
  - f. Infectious Disease Threat Surveillance and Detection
  - g. Infectious Disease Threat, Infection Control Measures During
  - h. Employee Infection and Vaccination Status
  - i. Surveillance for Infection
  - j. Coronavirus Disease (COVID-19) Vaccination of Residents
5. **Policies for reporting outbreaks to public health officials in accordance with applicable laws and regulations** are described in the following proprietary policies and procedures:
- a. Coronavirus Disease (COVID-19) Reporting Facility Data to the Centers for Disease Control and Prevention
  - b. Coronavirus Disease (COVID-19) Identification and Management of Ill Residents
  - c. Coronavirus Disease (COVID-19) Infection Prevention and Control Measures
  - d. Reporting Communicable Diseases
  - e. Infection Prevention and Control Committee
  - f. Infection Prevention and Control Program
  - g. Infectious Disease Threat Surveillance and Detection
  - h. Outbreak of Communicable Diseases

## CareOne Outbreak Response Policies and Procedures

- i. QA Committee – Role of the Infection Preventionist
6. ***Methods to communicate information on mitigating actions implemented by the facility to prevent or reduce the risk of transmission, including if normal operations of the facility will be altered. Notifications shall not include personally identifiable information;*** are described in the following proprietary policies, procedures, and protocols:
  - a. Infectious Disease Threat Communications Plan
  - b. Coronavirus Disease (COVID-19) Reporting Facility Data to the Centers for Disease Control
7. ***Methods to provide cumulative updates for residents, their representatives, and families of those residing in the facilities at least once weekly in particular during a curtailed visitation period*** are described in the following proprietary policies, procedures, and protocols:
  - a. Infectious Disease Threat Communications Plan
  - b. Coronavirus Disease (COVID-19) Reporting Facility Data to the CDC
8. ***Written Standards, policies and procedures that provide for virtual communication (e.g. phone video-communication, Facetime, etc.) with residents, families, and resident representatives, in the event of visitation restrictions due to an outbreak of infectious disease or in the event of an emergency*** are described in the following proprietary policies, procedures, and protocols:
  - a. Virtual Visits
  - b. Cleaning and Disinfection of Mobile Technology Devices protocol
  - c. Coronavirus Disease (COVID-19) Visitors and Communal Activities
  - d. Visitation IC During
9. ***A documented strategy for securing more staff in the event of a new outbreak of COVID-19 or any other infectious disease or emergency among staff*** is described in the following proprietary policies, procedures, and protocols:
  - a. Planning for Additional staffing needs
  - b. Coronavirus Disease (COVID-19) – Surge Capacity Staffing
10. **Additional proprietary policies, procedures, and protocols** that are part of our outbreak response plan:
  - a. COVID-19 Vaccination of Staff
  - b. Coronavirus Disease (COVID-19) – Telemedicine and Telehealth
  - c. Coronavirus Disease (COVID-19) – Vaccination of Residents
  - d. Infectious Disease Threat – Emergency Procedure
  - e. Infectious Disease Threat – Training and Education
  - f. Coronavirus Disease (COVID-19) Using Personal Protective Equipment
  - g. Coronavirus Disease (COVID-19) - Source Control
  - h. Coronavirus Disease (COVID-19) – Cleaning and Disinfecting
  - i. Coronavirus Disease (COVID-19) – Ventilation System
  - j. Coronavirus Disease (COVID-19) - Specimen Collection for COVID-19 Testing

## **CareOne Outbreak Response Policies and Procedures**

- k. Coronavirus Disease (COVID-19) – Staff Notification of Exposure
- l. Quarantine
- m. Disaster Training
- n. Monkeypox Virus

Please note that this policy listing is current as of the date it is posted. While we make every effort to update this summary of outbreak response policies, procedures and protocols, the current and most accurate listing is maintained within the Company's policy management platform.
