

THE MEDICARE 30-DAY WINDOW

If you return home from a Medicare-covered stay in a hospital, LTACH, or skilled nursing facility and find that you need to be readmitted for additional recovery time - you may be eligible to reaccess your remaining Medicare days without a new 3-night qualifying hospital stay.

Medicare guidelines allow for patients to be readmitted within a 30-day period. This 30-day period is referred to as a **Medicare Window**.

NEED MORE TIME TO RECOVER? UNDERSTANDING MEDICARE COVERAGE

You may qualify for this 30-day Medicare Window if you:

Have received Part A benefits in an acute hospital, rehab hospital, LTACH or skilled nursing center within the last 30-days

Require rehabilitative services or skilled nursing care

Have days remaining on your skilled nursing Part A, 100-day benefit period

Have physician orders for readmission

If you feel that you meet the criteria above, please call us at **(855) 277-8550**
